Notice of Receipt of Carried Interest from Fund III Series

We hereby announce that the funds managed by Integral Corporation (“Integral”) and its affiliates —Integral 3 Limited Partnership and Innovation Alpha L.P. (collectively the “Fund III Series”), expect to distribute additional carried interest.

1. Overview of Carried Interest

When the Fund III Series exceeds the hurdle rate (8% per annum on the deployed amount), Integral is entitled to receive distribution of carried interest amounting to 20% of the cumulative profits of the Fund III Series (excluding the portion attributable to our directors and employees).

Since its inception in 2017, nine investments and seven exits (including three partial exits) with the associated distributions have been executed to date in the Fund III Series. Subsequently the hurdle rate has already been exceeded.

Beginning February 18, 2026, the Fund III series began selling a portion of its holdings in Toyo Engineering Corporation via the open market. As a result of this, we expect to receive further carried interest from the Fund III Series. This carried interest is attributable to both this sale and the previous exits.

2. Future Outlook

Regarding the impact of the carried interest received on the consolidated financial results for the fiscal year ending December 31, 2026, revenue will increase by approximately JPY 1.3 billion, profit before income taxes will increase by approximately JPY 1.3 billion, and profit for the year will increase by approximately JPY 0.8 billion.

We will continue to disclose the amount of unrealized carried interest for the Fund III Series in the quarterly management presentation.
