## **Integral GlobalTech Partners Invests in Daloopa, a New York-based AI-financial Data Platform Company**

Integral GlobalTech Partners (Representative: CK Choun, hereinafter "IGT") announced that a fund managed by IGT group has participated in the Series B round of Daloopa, Inc. (CEO: Thomas Li, hereinafter "Daloopa").

### **Background and Purpose of Investment**

As financial institutions today face the challenge of balancing AI adoption with data reliability assurance, Daloopa addresses this issue by providing an AI-financial data platform with full traceability.

Furthermore, in July 2025, Daloopa announced its integration with Anthropic's Claude for Financial Services through the Model Context Protocol (MCP). This enables seamless integration between large language models (LLMs) and financial data, significantly enhancing the accuracy of AI-driven analysis.

As part of its Japan Nexus strategy, IGT supports the global expansion of startups with exceptional technology. While Daloopa has already commenced customer acquisition in the Japanese market, this investment will support the acceleration of its Japan operations, customer base expansion, and recruitment efforts.

CK Choun, Representative of IGT, stated:

"Daloopa provides a groundbreaking solution to the challenges faced by financial institutions advancing AI adoption. The company's approach—where each data point is linked to its original source with full traceability—aligns perfectly with the needs of Japanese financial institutions seeking to leverage AI tools while ensuring data auditability. Through our Japan Nexus strategy, we will fully support Daloopa's success in the Japanese market."

### **About Daloopa**

Daloopa is a New York-based AI-financial data platform company. Covering over 5,000 public companies worldwide, Daloopa provides over 10 times more data points per company compared to competitors.

Built with speed, traceability, and AI tool integration in mind, Daloopa serves hedge funds, private equity funds, and investment banks, accelerating research workflows across all finance operations.

### **About Integral GlobalTech Partners**

IGT was founded in March 2025 as an investment firm targeting global tech growth companies in Japan, Asia, the United States, and beyond. The firm invests in middle to late-stage startups in technology sectors including AI-powered SaaS, robotics, mobility, and renewable energy. IGT combines the operational support expertise of its parent company Integral, a private equity fund, with the global investment knowledge of our JV partner, Granite Asia, a leading Asian VC, to support the growth of portfolio companies.

### **About Integral**

Integral Corporation (Representative Director: Reiji Yamamoto) was founded in September 2007 as an independent Japanese private equity company investing in listed and unlisted companies in Japan. “Integral” stands for “integral calculus – accumulation over time” meaning that the company will strive to establish a relationship of highest trust with the management of invested companies. and will aim to accumulate the highest wisdom over time. Integral makes equity investments from a long-range perspective through its unique “hybrid investment” approach, utilizing both principal and fund money for investment. Subsequent to investment, the company will provide optimal support in terms of management and finance through the “i-Engine” corporate value enhancement team and will collaborate with the invested company sharing the same objectives and time horizon and seeing eye-to-eye with its management. Integral aspires to be a trusted investment fund, contributing to society through the success of invested companies.
